

## Philosophy

Seeds of Success Early Learning is based on Alberta's Early Learning and Care Framework named "Flight." Seeds of Success provides a developmentally appropriate and welcoming environment to young children from diverse cultures and backgrounds, allowing them to enhance their social-emotional, physical, and cognitive skills.

# Seeds of Success

Early Learning Inc.

Sowing the Seeds of Success

## Goal

We go beyond traditional daycare services at Seeds of Success, combining the strengths of early learning and childcare. Our approach blends the educational features of preschool with the practicality of full-day childcare. Our program creates an enriching environment where young children can develop socially and academically, preparing them for the journey to kindergarten and beyond.

## Preparing for School

Our Kindergarten Readiness program is designed with targeted learning goals that foster early literacy, pre-writing skills, early numeracy, and self-help abilities. At Seeds of Success, our daily activities focus on school readiness, including exercises for name recognition, colour identification, and self-awareness.

## Enrollment

Join us now!

Kindly ensure that your child is at least three years old to participate in Seeds of Success' Early Learning Inc.

## Fee

The Government Childcare Subsidy and Affordability Grant greatly reduce the cost of early learning. Reach out to us for information regarding the parental share of the fees.
